Bella Thorne is never one for subtlety. The 19-year-old actress took to Instagram to reveal her freshly colored hair, now bright red with bold yellow tips. She posed alongside older sister Dani, who's now twinning with the same crazy 'do.

While Bella is known for her signature auburn hair, although usually a slightly softer shade, she's actually a natural blonde. Bella shared images on Snapchat of the beauty transformation, leaving the end result a surprise.

Often one to share her beauty adventures on social media, Bella has previously posted pics of her getting body tattoos, piercings, and even tattooed eyebrows.

Always one to embrace her individuality, Bella continues to be a source of inspiration. She posted this advice on her Instagram: "No matter what's going on around you, don't be afraid to be YOU. Don't allow others to bring you down, because you rock!"

We agree. You do you.
